Thank You

Thank you for purchasing my fine motor skill task cards. These task cards are a great way for your students to work on their fine motor and pre-handwriting skills. Each task card contains a different template for your students to draw over for them to work on their pre-handwriting skills.

I recommend cutting out and laminating each of the individual task cards. That way, they will be stronger, longer lasting and reusable in the future.

Don’t forget to head back and leave feedback to let us know how you and your students enjoy these task cards.

If you have any questions, comments or requests please don’t hesitate to contact me at contact@teachingautism.co.uk

Thanks,
Nikki
