Item: Welding Program Renovations

Submitted by: Tim Peraino
Date: 4/1/19

Recommended by: Mike Hagerty
Board Meeting Date: 4/15/19

RECOMMENDATION:

It is recommended that the Kent ISD School Board approve Progressive AE as the Design-Build Firm for the welding program at a project cost of $1,198,878.91.

BACKGROUND:

We selected Progressive AE to serve as the design-build firm for the renovations needed to develop a full-scale welding program for Fall 2019. Progressive AE has developed drawings and submitted plan reviews to the State for approval. In addition, Progressive AE has solicited bids for all required work categories. Kent ISD Facilities staff reviewed and approved all drawings, bid documents and bid recommendations. The $1,198,878.91 cost will cover all required construction work as well as 23 welding booths. CTE millage funds will be used for this project.
