

1) Click Settings > Standards Grade Calculations

### Standards Grades Calculations

2) Choose your “Default Calculation” Method. This can be most recent scores, mean, median, mode, weighted mean, highest, or none. Remember, you must set up your standards calculations for every course you teach.

Standards Grades

Calculate standards grades from assignment standards scores.

Default Calculation

Most Recent Scores

Most Recent Scores Calculation

Set how many recent scores to include in the calculation, and their relative weighting.

Number of Scores

3

SCORE	WEIGHT	PERCENT
1 (Most Recent)	1	33.33%
2	1	33.33%
3 (Least Recent)	1	33.33%

- 3) If you choose “Most Recent Scores” as your default calculation, you must set up how many scores you wish to use in the calculation. You may also give each attempt you are calculating a different weight. (Example: Most Recent 50%, 2<sup>nd</sup> 25%, 3<sup>rd</sup>, 25%)
