      (i) Data that indicate that in the identified annual goal there is a potential for regression of skills beyond a reasonable period of recoupment.
      (ii) Data regarding the nature or severity of the disability of the student that indicates that there is a need to provide services in the identified annual goal during breaks in the school year.
      (iii) Information that indicates that in the identified annual goal the student is at a critical stage of learning or in a critical area of learning where failure to provide a service beyond the normal school year will severely limit the student's capacity to acquire essential skills.
   (b) If the individualized education program team determines that the data or information in any of subrule (3)(a)(i) to (iii) of this rule indicate a need for extended school year services, then extended school year services shall be included in the student's individualized education program.

The state board of education shall adopt procedures for placement at the Michigan school for the deaf.

(6) The school district of residence is responsible for conducting the initial individualized education program team meeting involving a student in its district and shall conduct, or authorize the operating district to conduct, each subsequent individualized education program team meeting at a mutually agreed upon time and place.

(7) Upon request of the parent, a representative of the school district of residence shall be invited to attend the individualized education program team meeting if the district of residence has authorized the operating district to conduct each subsequent individualized education program team meeting.

R 340.1732   Designation of residency.

Rule 32. (1) A student with a disability is a resident of 1 school district in which the student has enrolled, and in which at least 1 of the student's parents resides. If the parents are legally separated or divorced and reside in different school districts, then the student with a disability may enroll in 1 of the school districts where either parent resides, regardless of the school district of residence of the parent having custody. The school district in which the student has enrolled remains the student's resident school district when either of the following occurs:

(a) The student with a disability sleeps, keeps personal effects, and regularly lodges in a school district other than the school district in which a parent resides, for an educational purpose, not for the purpose of securing a suitable home.

(b) The student with a disability is lodged in a school district other than the school district in which a parent resides as directed by an agency or institution under the auspices of a court, the department of community health, or the family independence agency in a facility such as a private home, group home, or a private or public institution.

(2) Both of the following situations are exceptions to the provisions of subrule (1) of this rule:

(a) If a guardian has been appointed to provide the student with a disability with a suitable education, then the student is a resident of the school district in which the guardian resides.

(b) If the student with a disability is under the control or custody of the family division of circuit court and is a ward of the state, has no living parent or guardian, or the parents reside out of the state, then the student is a resident of the school district in which the family division of circuit court is located.

(3) A student with a disability who is not covered in subrule (1) or (2) of this rule is a resident of the school district in which the student habitually sleeps, keeps personal effects, and has a regular place of lodging for the purpose of securing a suitable home and not solely for an educational purpose.

(4) Notwithstanding the provisions of subrules (1), (2), and (3) of this rule, all of the following provisions apply when the student with a disability is placed under the order or direction of a court or child placement agency and is lodged in a state institution, licensed foster home, licensed nursing home, or licensed group residential facility:

(a) The school district in which the institution, home, or facility is located shall provide for the delivery of special education programs and services to the student with a disability under section 1751 of 1976 PA 451, MCL 380.1751.

(b) The student with a disability shall be deemed to be a resident of the school district for the purpose of record maintenance required by 1976 PA 451, MCL 380.1757.

(c) For all other purposes, including funding, the student's residence shall be determined under subrules (1), (2), and (3) of this rule.

(5) If a disagreement occurs between 2 or more school districts as to the residency of a student with a disability, then all of the following procedures apply:

(a) Notice shall be sent to the department by a school district involved. The notice shall include all of the following information:

(i) The names of all of the school districts alleged as a resident school district.

(ii) The name of the student involved.

(iii) The name and address of the parent or guardian, or address of the student if the student is over 18 years of age.

(b) The department or its representative shall immediately notify the school districts involved and the parent, guardian, or student of the receipt of notice of disagreement.

(c) Within 7 calendar days of receipt of notice from the department, all parties shall provide the department with a written statement of their position and supporting facts.

(d) Within 14 calendar days of the receipt of a notice of a disagreement from a school district, the department shall investigate the matter, consider information received from the parties involved, and
make a determination as to the residency of the student. A copy of the determination shall be immediately sent to each party involved.

e) Upon a written demonstration of just cause by any party involved, the state board of education or its designee may extend the time limits set forth in this subrule.

(e) The age span for students who are assigned to special education programs, except for programs for students with severe cognitive impairment and severe multiple impairments, operated in secondary buildings attended by students who are nondisabled, shall not exceed, at any 1 time, the age span of the students who are nondisabled in the building, except in high school buildings where students up to 26 years of age may be served. The term "nondisabled" shall not include persons participating in adult education programs.

(f) Programs for students with severe cognitive impairment, severe multiple impairments, and moderate cognitive impairment shall comply with subdivisions (b), (c), (d), and (e) of this rule unless a program is operated in accordance with an approved intermediate school district plan where, due to the low incidence of eligible students, expanded age ranges may be necessary for programmatic feasibility and meeting the needs of students.

(g) Students with disabilities qualifying for special education programs and services shall be provided with supplies and equipment at least equal to those provided to other students in general education programs, in addition to those supplies and equipment necessary to implement a student's individualized education program.

(h) Intermediate school districts, local school districts, public school academies, or a combination of such agencies in cooperation with public and private entities, shall provide or contract for the provision of transition services. Special education teachers shall be assigned to supervise such services. Professional special education personnel, a transition coordinator, or both, shall coordinate transition services.

(i) For worksite-based learning, a written agreement/plan is required and shall be signed by the student, parent, school, and worksite representative. The agreement shall set forth all of the following information:

(j) Substitute instructional aides specified in R 340.1738, R 340.1739, and R 340.1748 shall be provided when assigned instructional aides are absent. In addition, teacher aides specified in R 340.1739 and R 340.1740 shall be provided when assigned teacher aides are absent.

A copy of the request shall be filed concurrently with the intermediate school district in which affected students with disabilities reside and all local constituent school districts in which the affected students with disabilities reside. A copy of the request shall be filed concurrently with the parent advisory committee of the intermediate school district that requests the deviation and the parent advisory committee of any intermediate school district in which affected students with disabilities reside.
   (2) Within 7 days of receipt of the request, the intermediate school district shall review and inquire into the request and shall file, with the department, its position regarding the appropriateness of the request and its objections to, or endorsement of, the request, together with the rationale regarding its position.
   (3) The state board of education or its designee shall initiate action within 30 calendar days of receipt of the request. The board or its designee may grant the request, in writing, for a period not to extend beyond the end of the current school year and upon such terms and conditions as it shall specify only when, in its judgment, the best interests of the students with disabilities affected by the deviation are served and good cause is shown.
   (4) A deviation shall not be granted when the intent of the deviation is to exclude a student with a disability from, or deny a student with a disability participation in, a special education program or service that is required.
   (5) A program deviation that is granted by the state board of education or its designee is public information. The affected intermediate school districts, constituent local school districts, or public school academies shall inform their involved personnel of granted deviations in any manner they deem appropriate. At a minimum, the parent advisory committee shall be informed of the disposition of the request.
   (6) A deviation shall not be requested for the purpose of avoiding or postponing corrections directed by the department under part 8 of these rules.
   (7) If a final decision to deny a deviation request is made, then the school district that makes the request shall correct the condition that precipitated the request and shall forward to the department, office of special education and early intervention services, within 30 school days of the denial, its assurance that the matter is now in compliance with the respective rule.
