### Documenting Targeted Case Management Services

**CASE MANAGEMENT GUIDELINES:**

- You must be the student’s Case Manager (the person responsible for the student’s IEP/IFSP) to bill for CM services.
- There may be only *ONE* Case Manager per student.
- To bill Medicaid, the student’s IEP/IFSP must prescribe at least one direct service to address a ‘medical’ disability. These services include: Psychology, Social Work, OT, PT, Nursing, Speech, Audiology, Orientation and Mobility.
- You may NOT bill for the initial Eligibility Determination or IEP/IFSP. CM services start *AFTER* the student is certified as Special Education.

**SUPERVISION & UNDER THE DIRECTION for Personal Care**

1.4 UNDER THE DIRECTION OF AND SUPERVISION for Personal Care
(Taken from the MICHIGAN DEPARTMENT OF HEALTH AND HUMAN SERVICES PROVIDER MANUAL DATED October 2017)
Certain specified services may be provided under the direction of or under the supervision of another clinician. For the supervising clinician, "under the direction of" means that the clinician is supervising the individual's care which, at a minimum, includes seeing the individual initially, prescribing the type of care to be provided, reviewing the need for continued services throughout treatment, assuring professional responsibility for services provided, and ensuring that all services are medically necessary. "Under the direction of" requires face-to-face contact by the clinician at least at the beginning of treatment and periodically thereafter.

Please note, if you work with an aide that provides Medicaid billable Personal Care Services, you are required to review and sign off on all service dates in PowerSchool Special Education.

**False Claims Act**
The Federal False Claims Act, among other things, applies to the submission of claims by healthcare providers for payment by Medicare, Medicaid and other federal and state healthcare programs. The False Claims Act is the federal government's primary civil remedy for improper or fraudulent claims. It applies to all federal programs, from military procurement contracts to welfare benefits to healthcare benefits.

The False Claims Act prohibits among other things:
- Knowingly presenting or causing to be presented to the federal government a false or fraudulent claim for payment or approval;
- Knowingly making or using, or causing to be made or used a false record or statement in order to have a false or fraudulent claim paid or approved by the government;
- Conspiring to defraud the government by getting a false or fraudulent claim allowed or paid; and
- Knowingly making or using, or causing to be made or used, a false record or statement to conceal, avoid, or decrease an obligation to pay or transmit money or property to the government.

Any person who knowingly attempts to defraud the federal government is liable to the United States Government for a civil penalty of not less than $5,000 and not more than $10,000, plus 3 times the amount of damages which the Government sustains because of the act of that person.

"Knowingly" means that a person, with respect to information: 1) has actual knowledge of the information; 2) acts in deliberate ignorance of the truth or falsity of the information; or 3) acts in reckless disregard of the truth or falsity of the information.

Examples of Medicaid Fraud:
• Billing for medical services not actually performed
• Providing unnecessary services
• Billing for more expensive services
• Billing for services separately that should legitimately be one billing
• Billing more than once for the same medical service
• Giving or accepting something of value (cash, gifts, services) in return for medical services, (i.e., kickbacks)
• Falsifying cost reports
• Billing for missed appointments

**Reporting Suspected Fraud or Abuse**

Kent ISD is committed to ensuring that all coding, billing and reimbursement procedures comply with all federal and state laws. The “back-end” billing system, MeduClaim provided by CompuClaim, has been designed to limit the recording of services to those procedure codes that are appropriate for the user’s profession and only up to the maximum amount allowed per day or month. However, the system cannot ensure that the services were provided as stated, that they were medically necessary or were not false or misleading.

In most cases, an employee's supervisor is in the best position to address an area of concern. Supervisors and managers are required to report suspected violations to the Compliance professional, Anne Papa, who has specific and exclusive responsibility to investigate all reported violations regarding the filing of false or fraudulent claims. **If you are not comfortable speaking with your supervisor or you are not satisfied with your supervisor's response, you are encouraged to speak directly to the compliance professional, Anne Papa-Roark.**
